

SPRING SUMMER 2024

CONNEXION TIE

A true specialist

Since 1939, JBS Textile Group has been creating high quality men's underwear. We believe that comfort and the perfect fit are achieved through expertise, experience and constant attention to detail. That's the approach we take with every product we make. And it reflects our passion, values and standards.

JBS is the largest supplier of underwear in Scandinavia. But, over the years, we have branched our expertise into other areas of the textile industry. Today, 20 brands are part of the JBS family – each with its own unique identity and audience.

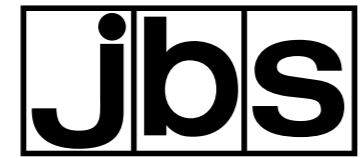

Each day, more than 100,000 products are sent from our warehouse in Denmark – to retailers and stores in more than 50 countries. We are always exploring new materials and functions – but never lose sight of our principles and values. That's the approach of a true specialist.

In this catalogue, you find detailed information about our four men's brands: JBS, Egtved, Claudio, Connexion Tie and Philipsons.

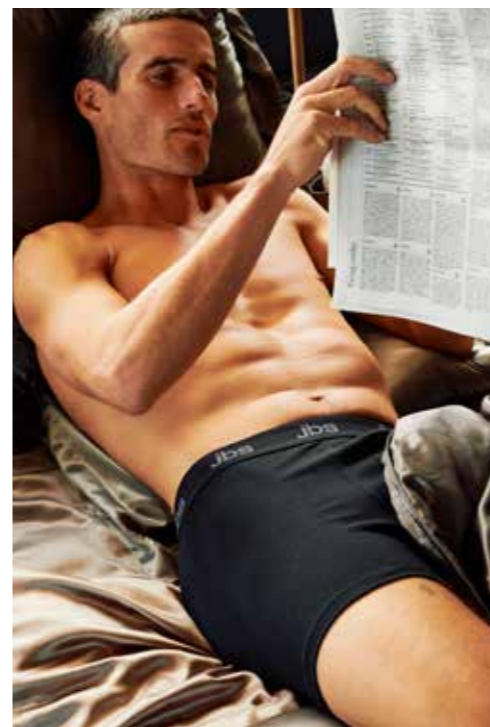

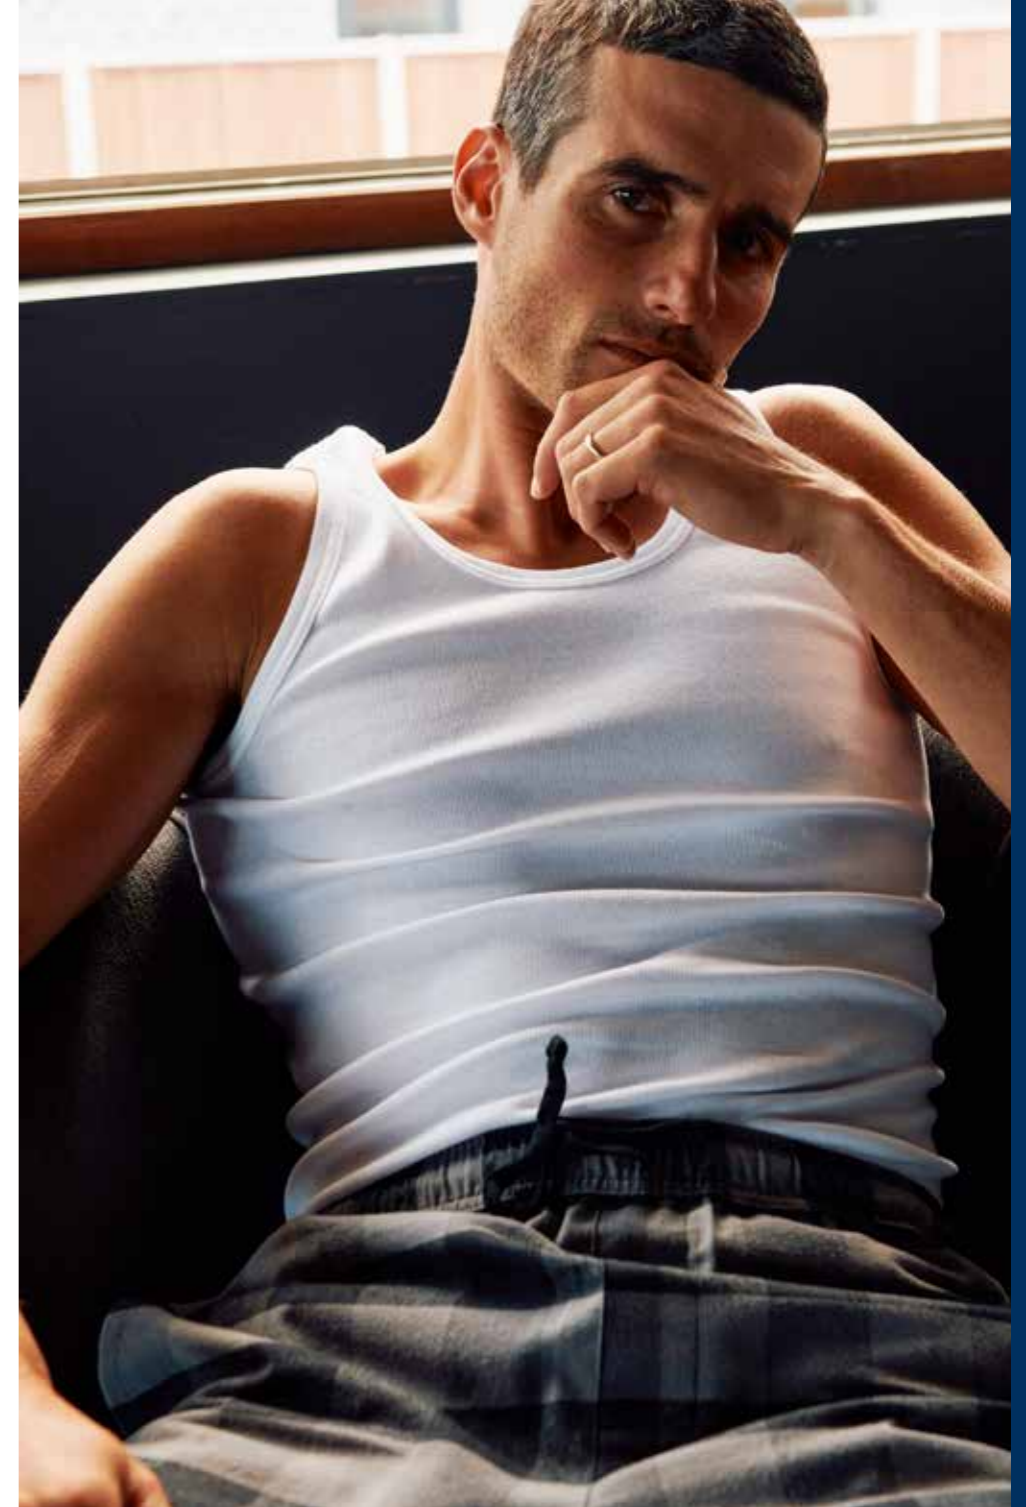

CONNEXION TIE

JBS is the leading underwear brand in Denmark.

The brand is founded on eight decades of industry experience bringing you consistent quality, excellent durability and a perfect fit. With a wide range of styles and shapes, there is a JBS favourite for everyone – whether you prefer fitted tights or relaxed boxers, singlets or t-shirts.

JBS Multipack

With JBS Multipack shopping for men's underwear is made a little easier. The concept makes it easy to stock up on your favourite underwear – without compromising on style, quality and comfort. Simply pick the style, size and colour you like from a selection of convenient multipack options.

We know that style is an important factor. JBS

multipacks are therefore available in many stylish colours and patterns inspired by young fashion. And they offer a tight fit that is perfect underneath slim fit trousers, jeans and shirts.

Whether you prefer bamboo-viscose or cotton, colours or patterns, the price remains the same. It doesn't get much easier than that.

A variety of options

JBS Trade

Everyone has different taste in underwear. JBS Trade includes three of our best-selling men's underwear models: The popular JBS tight with slightly longer legs, the classic loose fit boxer shorts and the mini slip briefs.

The three models have become everyday favourites thanks to their consistent quality and fit.

And because they are made by an underwear specialist, each model offers a comfortable fit, excellent durability and premium quality.

JBS Trade comes in single packs – and is an obvious choice for multibuy. Your customer saves money per unit while you are able to increase sales.

JBS Original

Originally unicoloured

JBS Original is synonymous with JBS and has been for eight decades. Designed in the 1940s, the iconic blue range originates from a time where underwear was made of 100% cotton and washed at 90°C. To avoid the underwear from becoming too short or breaking, JBS originals were given extra length and waistbands in a combination natural rubber and cotton. Even today, these features are appreciated by the modern consumer.

New styles have joined the JBS Original concept over the years, but the original blue range remains more or less unchanged. Like the best design classics, it has stood the test of time. With its timeless shape, comfort and quality.

The range is not limited to one audience. But has become a preferred brand across segments. From the loyal adult consumer to the style conscious consumer who praises originality.

JBS Specialised

*Some styles are delivered on hangers
Special made by JBS*

Underwear is our speciality and has been for 80 years. With JBS Specialised, we use our expertise and longstanding experience to create luxurious functional details like cotton-covered waistbands and soft rib options. The range is tailored to make you feel good all day long – and to make your clothes fit better. Like only a true specialist knows how to.

The range targets an audience that values specialised materials, functions and quality. The market for JBS Specialised is typically a little smaller than the other JBS ranges. But, in exchange the audience is extremely loyal to the specific style.

JBS ProActive

With a combination of heat retaining and moisture absorbing qualities, JBS ProActive is ideal for outdoor activities. It is soft against the skin and designed to keep you warm when temperatures are low.

JBS ProActive is ideal as base layer for working, cycling, running, golfing, skiing and much more.

It is lightweight and offers a perfect fit due to its stretchy construction.

The fabric is designed to transport moisture away from the skin making it a perfect choice for an active lifestyle.

Designed for ...

... Active living

To make sure there is a JBS favourite for everyone, JBS offers a wide range of styles, shapes, qualities and weavings – all with many great features. But what is the difference between the many undershirts and what are the names of the different models?

Whenever you are in doubt, the JBS Lexicon gives you the answers. Here, you find the product information and key features you need to give your customer the best guidance and advice.

Undershirts: The different models

Some prefer the o-neck. Others always choose the v-neck. With 6 different models, JBS meets most

demands. Here, you can see what the differences are between the models.

	MODEL 01	SINGLET	Undershirt, singlet, "wife beater" and tank top. A classic undershirt without sleeves.	<i>Undertrøje, singlet, "wife beater" og tanktop. En klassisk undertrøje uden ærmer.</i>
	MODEL 02	O-NECK	A rounded neckline that forms an "o" when you see it from above.	<i>En rund hals, der former et "o", når du ser den fra oven.</i>
	MODEL 03	T-SHIRT W/ BUTTONS	Undershirt with short sleeves and button placket.	<i>Undertrøje med korte ærmer og knapper i halsåbningen.</i>
	MODEL 04	LONG SLEEVES W/ BUTTONS	Undershirt with long sleeves and button placket.	<i>Undertrøje med lange ærmer og knapper i halsåbningen.</i>
	MODEL 14	LONG SLEEVES	A basic T-shirt with long sleeves.	<i>En basis T-shirt med lange ærmer.</i>
	MODEL 20	V-NECK	A neckline with straight sides that meet to form a V-shape.	<i>Halsåbning med lige sider, der former et V.</i>

Undershirts: The different designs

Short or long? Slim or loose? Light or heavy? Use the table below to see the differences between the different JBS designs. Or use the table to see if a design is available as singlet, with o-neck or v-neck.

Underpants: The different models

Do you know how your trunks are different from your tights? Your boxers from your briefs? Underpants are available in a wide variety of models,

each with its specific attributes and designs. Below, we break down the different JBS models and what we call them.

	MODEL 05	LONG LEGS W/FLY	Also known as "Long Johns". The model is close-fitted, so that you can wear it under your clothes on cold days.	<i>Også kendt som "longjohns". Modellen er tætsiddende, så du kan have dem på under dit tøj på kolde dage.</i>
	MODEL 06	TIGHTS W/FLY	Tight-fitted and covers about half of the thigh.	<i>Tætsiddende og dækker cirka halvdelen af låret.</i>
	MODEL 07	MINISLIP	Our smallest brief. Low rise and without legs.	<i>Vores mindste truse. Med lav talje og uden ben.</i>
	MODEL 09	BRIEFS W/FLY	Brief with curved fly.	<i>Brief med buet gylp.</i>
	MODEL 11	KNICKERS	Model with ¾ leg length, so that they cut just below the knee and mid-shin.	<i>Model med ¾ benlængde, så benene når ned lige under knæet, midt på skinnebenet.</i>
	MODEL 12	BRIEFS W/FLY	Brief with straight fly.	<i>Brief med lige gylp.</i>
	MODEL 13	BOXERSHORTS	Loose-fitted boxer shorts also known as American boxers.	<i>Løse boxershorts, også kaldet American boxers.</i>
	MODEL 46	TIGHTS W/FLY	Tights with a wide and soft waistband and fly.	<i>Tights med bred og blød elastik og gylp.</i>
	MODEL 47	TRUNKS	A shorter version of our tights. With low waist and short legs.	<i>En model, der er kortere end tightsene. Med lav talje og korte ben.</i>
	MODEL 49	TIGHTS	Tights with medium waist and medium legs.	<i>Tights med medium talje og medium ben.</i>
	MODEL 51	TIGHTS	Tights with high waist and long legs	<i>Tights med høj talje og lange ben.</i>
	MODEL 66	RIO SLIP	Brief without fly with wide and soft elastic band.	<i>Brief uden gylp, med bred og blød elastik.</i>

Underpants: The different leg lengths

JBS underpants come with three different leg lengths: Long, medium and short. Take a look here,

if you want to know more about their fit and key features.

MODEL 51	MODEL 49	MODEL 47
		
<p>Our best-selling tights. This model has slightly longer legs and a higher waist than model 49.</p> <p>When using model 51, you avoid that your tights roll down when you sit or bend over.</p>	<p>This fit is used more and more in tights. Its measurements are similar to those of model 51 but it has slightly shorter legs and a lower waist. If you wear low rise jeans, you may feel that the elastic waistband of your tights tends to creep up over the edge of your belt. This should not be a problem with model 49. The slightly shorter leg length means you have less fabric in the thigh area.</p>	<p>This model has even shorter legs and a lower waist compared to model 49. That is why we called them trunks. The model is perfect if you are looking for small underpants that stay put and don't bulk, e.g. under a pair of slim fit jeans.</p>
<p><i>Vores mest solgte tights. Denne model har lidt længere ben og en højere talje end model 49.</i></p> <p><i>Når du bruger model 51, undgår du derfor, at dine tights glider ned, når du sætter dig eller bukker dig ned.</i></p>	<p><i>Denne pasform bliver brugt mere og mere til tights. Den har stort set de samme mål som model 51, dog med lidt kortere ben og en lidt lavere talje. Hvis du bruger lavtaljede jeans, føler du måske, at elastikken fra dine underbukser har en tendens til at kravle over bæltekant. Dette bør ikke være et problem med model 49. De lidt kortere ben betyder, at du har mindre stof i lårområdet.</i></p>	<p><i>Denne model har endnu kortere ben og en endnu lavere talje end model 49. Derfor kalder vi dem trunks. Denne model passer til dig, der ønsker underbukser, der ikke fylder for meget, f.eks. under et par stramme jeans.</i></p>

Qualities

JBS underwear is available in a wide variety of qualities with different benefits. From natural fibres as cotton, wool and bamboo. To synthetic fibres as Lycra, elastane and polyamide. At JBS, we are always exploring new materials and functions – without compromising quality and performance.

Below you find a brief guide to the different qualities – to better understand what makes them different and which ones fit the needs of your customer.

COTTON	A natural material that offers great breathability and feels comfortable against the skin.	<i>Et naturligt materiale med god åndbarhed, og som føles blødt og behageligt mod huden.</i>
ELASTANE	A synthetic fibre with elastic benefits. It offers great stretch and durability that is perfect for underwear. The material makes sure that the underwear keeps its shape all day.	<i>En syntetisk fiber med elastiske egenskaber. Den har et godt stræk og god holdbarhed, som passer godt til undertøj. Materialet sørger for, at undertøjet holder formen hele dagen.</i>
WOOL	A natural material with thermo-regulating properties. It provides good insulation, transports moisture and is odour neutralising.	<i>Et naturligt materiale med temperaturregulerende egenskaber. Det isolerer godt, transporterer fugten væk fra huden og mindsker lugt.</i>
BAMBOO-VISCOSE	An extremely soft fibre that absorbs 3-4 times as much moisture as cotton. It is naturally antibacterial and odour-resistant.	<i>En utrolig blød fiber, der absorberer 3-4 gange så meget fugt som bomuld. Det er naturligt antibakterielt og mindsker de bakterier, der giver dårlig lugt.</i>
MICROFIBER	A synthetic fibre that offers great breathability and moisture wicking properties, making it a great choice for sports.	<i>En syntetisk fiber med god åndbarhed og fugtabsorberende egenskaber. Passer derfor godt til sportsaktiviteter.</i>
POLYAMIDE	A strong, hardwearing synthetic fibre. Is often used in a blend with other fibres to improve durability and to add stretch.	<i>En syntetisk fiber, der er meget slidstærk. Den bruges ofte i en blanding med andre fibre for at forbedre holdbarheden og tilføje stræk.</i>
POLYESTER	A synthetic fibre that is extremely durable. It is quick drying and retains colours and shape well.	<i>En syntetisk fiber, som er utrolig holdbar. Den tørrer hurtigt og holder godt på både farver og form.</i>

Weaving

We use a variety of weavings in our underwear and homewear range to deliver style and comfort. It is a method of textile production in which two sets

of individual yarn or threads are interlaced at right angle to form a fabric. This pattern forms a strong and yet flexible structure.

1X1 RIB	The narrow rib gives a soft and lightweight fabric with great stretch. And it is the most frequently used rib for our underwear. It is e.g. used in dessin 300.	<i>Den smalle rib giver et blødt og let stof med et godt stræk. Det er den meste brugte metervare i vores undertøj, og den bruges eksempelvis i dessin 300.</i>
2X2 RIB	A wider rib that adds more structure to the fabric. Is used in dessin 390.	<i>En bredere rib, der giver mere struktur i stoffet. Bruges i dessin 390.</i>
JERSEY	A knit fabric that is also known as plain knit or single knit. It offers great stretch and is typically very lightweight.	<i>Et strikket stof, der også kaldes "plain knit" eller "single knit" på engelsk. Det har et godt stræk og er typisk meget let.</i>
POPLIN	A strong fabric made with a plain weave where threads alternately cross over and then under each other. This gives crosswise ribs that are closely spaced.	<i>Et slidstærkt stof med enkeltvævning, hvor tråde på skift krydser over og under hinanden. Det giver en ribstruktur, der ligner små kors, der sidder helt tæt sammen.</i>
FLANNEL	A soft woven fabric. It is woven loosely in either a twill weave or plain weave. By using a looser yarn, the fabric has more air pockets. This provides an insulating effect.	<i>Et blødt, vævet stof. Det er løst vævet i enten en twillvævning eller enkeltvævning. Ved at bruge et løsere garn får stoffet flere luftlommer, der giver en god isolerende effekt.</i>
VELOUR	A plush, knitted fabric similar to velvet. It is made with a pile knit structure where yarns are knit into little loops that are then cut off.	<i>Et blød, vævet stof, der minder om fløjel. Den har en kort og tætsiddende luv, som er vævet i små løkker, der derefter er skåret over.</i>

Responsibility

For more than 80 years, we have been producing underwear – always with a quality-first mindset. Great quality and long-lasting products that must be replaced less frequently, means less waste, less energy consumption, and less pollution, and are

therefore the more sustainable choice. For us, quality is not just about great craftsmanship. It is much more than that. Quality products must be long-lasting, it must be comfortable to wear, it must be made with the best and materials

possible, it must be made with respect for people and the environment, and it must be made without the use of toxic and harmful chemicals. That is the quality-first mindset of JBS.

In the following you will find a short description of the different certificates and standards, we are working with at JBS.

- GOTS is short for Global Organic Textile Standard.
- GOTS is the most used standard for organic textiles made from natural fibers like cotton and wool and guarantees that all the processes are done without the use of harmful chemicals.
- GOTS have strict requirements regarding environmental and social issues. Certified by Ecocert Greenlife, License no.: 210366.

- GOTS er forkortelsen for Global Organic Textile Standard
- GOTS er den mest brugte standard for økologiske tekstiler lavet af naturlige fibre såsom bomuld og uld.
- GOTS garanterer at alle processer sker uden brug af skadelige kemikalier.
- GOTS har strenge krav til miljømæssige og sociale forhold.
- Certificeret af Ecocert Greenlife, Licensnr.: 210366

The mark of responsible forestry
FSC®
www.fsc.org
FSC® C160308

- FSC® is short for Forest Stewardship Council®.
- We have chosen FSC-certificed Bamboo-Viscose to support responsible forestry.

- FSC® er forkortelsen for Forest Stewardship Council®.
- Vi har valgt FSC-certificeret bambus-viskose for at støtte ansvarlig skovdrift.

- OCS is short for Organic Content Standard.
- Products certified to the Organic Content Standard (OCS) contain organically grown material that has been independently verified at each stage of the supply chain, from source to final product.
- Certified by Ecocert Greenlife License no.: 210366.

- OCS er forkortelsen for Organic Content Standard.
- Produkter certificeret med Organic Content Standard (OCS) indeholder økologisk dyrket materiale, som er blevet uafhængig verificeret på alle stadier af forsyningskæden fra råmateriale til færdigt produkt.
- Certificeret af Ecocert Greenlife, Licensnr.: 210366.

- GRS is short for Global Recycled Standard.
- Products certified to the Global Recycled Standard (GRS) contain recycled material that has been verified at each stage of the supply chain from recycler to final product. In addition, facilities from the recycler to final supplier have met social, environmental, and chemical requirements.
- Certified by Ecocert Greenlife, Licensnr.: 210366.

- GRS er forkortelsen for Global Recycled Standard.
- Produkter certificeret med Global Recycled Standard (GRS) indeholder genanvendt materiale, som er blevet verificeret på alle stadier i forsyningskæden, fra genanvender til færdigt produkt. Derudover lever faciliteterne fra genanvender til sidste leverandør op til sociale, miljø og kemikrav.
- Certificeret af Ecocert Greenlife, Licensnr.: 210366.

- Oeko-Tex guarantees that every component of a labelled article, i.e. every thread, button and other accessories, has been tested for harmful substances and that the article therefore is harmless in human ecological terms.
- The requirements are much stricter than what is stated in the Danish and EU law.

- Oeko-Tex garanterer, at hver eneste komponent af et certificeret produkt, f.eks. hver tråd, hver knap, osv., er testet for skadelig kemi.
- Kravene i Oeko-Tex er langt mere omfattende end de krav, der er bestemt ved lov i Danmark og EU.

- BSCI is short for Business Social Compliance Initiative.
- BSCI provides an online platform which, through third part auditing, helps to improve social conditions in our global supply chain.
- JBS is member of BSCI which provide us with the necessary tools to work with our suppliers towards better social conditions for the workers, and towards more environmentally conscious production.

- BSCI er forkortelsen for Business Social Compliance Initiative.
- BSCI leverer en online platform, som, ved brug af tredjepartauditering, hjælper med at forbedre sociale og miljømæssige forhold i vores globale forsyningskæde.
- BSCI giver os de nødvendige værktøjer, vi skal bruge for at arbejde proaktivt med vores leverandører, med det formål at forbedre forholdene for arbejderne, samt sikre en mere miljøbevidst produktion.

- The Woolmark logo is a quality assurance for textiles made of wool.
- A product containing the Woolmark logo have been tested in regard to content, colorfastness, durability and washing.

- Woolmark-logoet er et kvalitetsstempel for tekstiler lavet af uld.
- Når et produkt bærer Woolmark-logoet, betyder det, at produktet er testet i forhold til indhold, farvefasthed, holdbarhed og vask.

- Is also known as The Green Dot.
- When the Green Dot is shown on the packaging, it means that the product owner has made a financial contribution to local parties in charge of collecting, sorting, and recycling the packaging waste.

- Også kendt som "The Green Dot".
- Når det lille grønne logo er vist på emballagen, betyder det, at de instanser, som står for genanvendelse i det land, som produktet sælges i, har modtaget et bidrag for at sørge for ansvarlig genanvendelse af emballagen.

More than a black sock – feel the difference

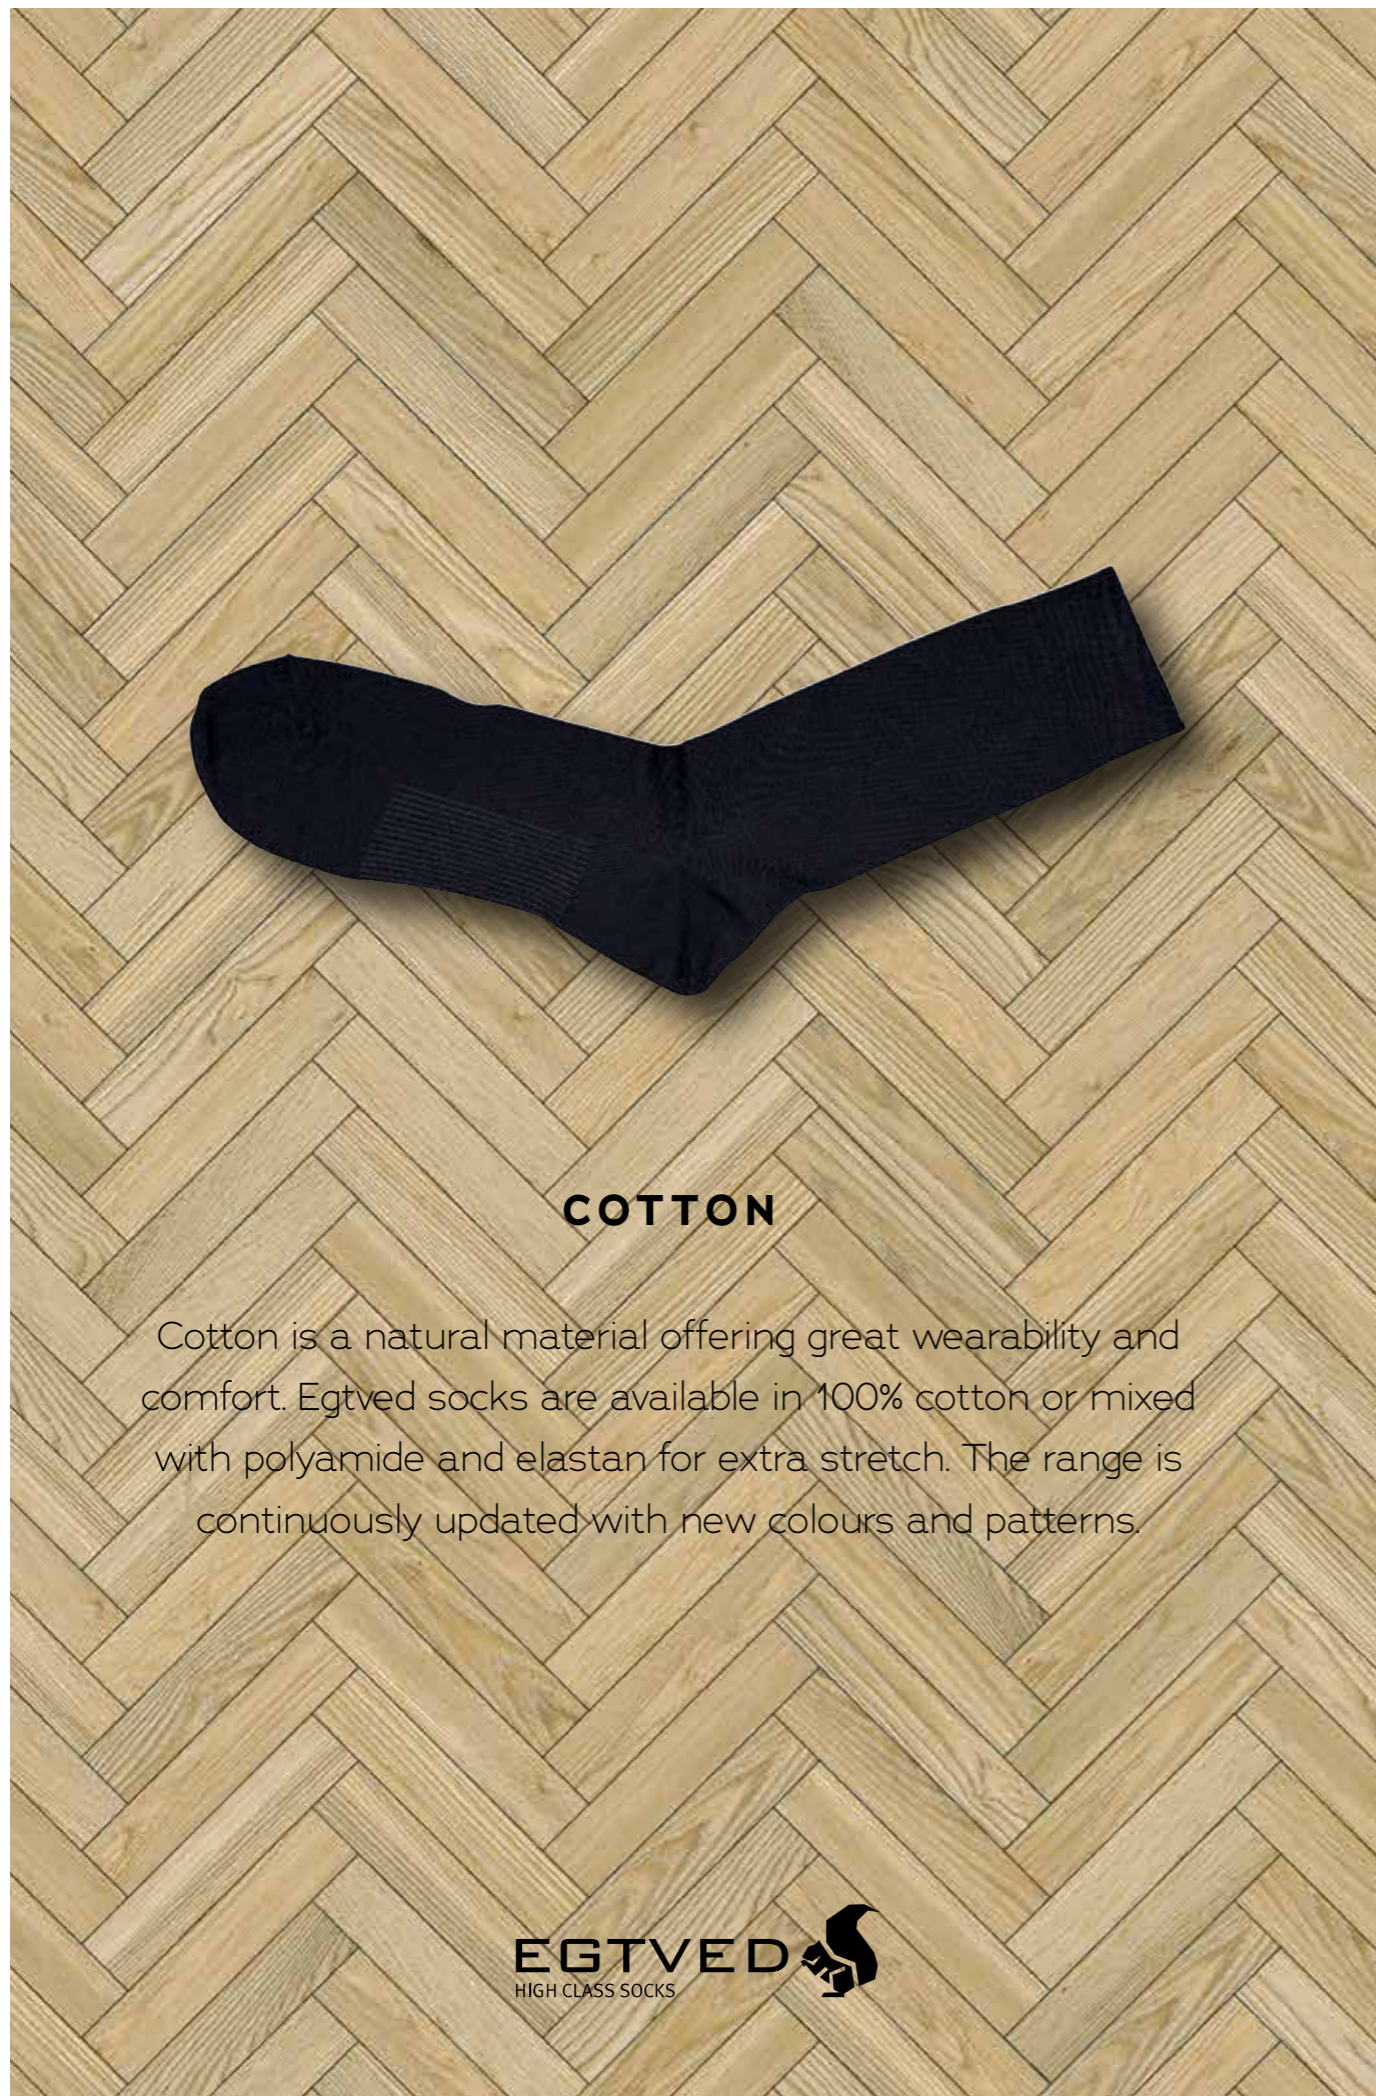

Egtved is an exclusive sock brand that offers luxury men's socks in a timeless design. Since 1931, the brand has been known for the superior quality of its socks. In addition to classic material blends, Egtved also offers socks made with special, functional fabrics.

High class
business socks

Display with spikes

COTTON

Cotton is a natural material offering great wearability and comfort. Egtved socks are available in 100% cotton or mixed with polyamide and elastan for extra stretch. The range is continuously updated with new colours and patterns.

The Egtved Lexicon

The Egtved range offers a wide range of socks that match different occasions and needs. But which socks should you choose and what are their special features?

The Egtved Lexicon gives you the answers when you are in doubt. Here, you find the product information and key features you need to give your customer the best guidance and advice.

What we call our socks

	SOCK	A classic sock suited for everyday use – both formal and casual.	<i>En klassisk strømpe, der passer til hverdagsbrug – både til formelt og afslappet brug.</i>
	KNEEHIGH	A sock intended to hide bare skin while maintaining circulation in legs and feet.	<i>En strømpe, der er designet til at skjule bar hud, mens den sikrer god cirkulation i ben og fødder.</i>
	FOOTIE	An ankle-high sock usually used in spring and summer when wearing shorts or casual trousers.	<i>En ankelstrømpe, som typisk bruges i foråret og om sommeren, når vi går i shorts eller afslappede bukser.</i>
	INVISIBLE	A no show sock that protects your feet. Perfect for casual trousers, loafers and sneakers.	<i>En usynlig strømpe, der beskytter dine fødder. Perfekt til afslappede bukser, hyttesko og sneakers.</i>

Qualities

To ensure great comfort and fit, Egtved socks are made of quality fabrics. From natural materials such as cotton, wool and bamboo-viscose to synthetic materials such as polyamide and elastane.

In the table below, you find a short description of each material used in our Egtved range. This will help you to better understand what makes them different and which ones fit the needs of your customer.

COTTON	A natural material that allows your feet to breathe and which feels soft against the skin.	<i>Et naturligt materiale, der lader dine fødder ånde, og som føles blødt mod huden.</i>
MERCERISED COTTON	A luxury fabric with a silky wash-resistant shine. Offers high colour-fastness and great strength.	<i>Et luksuriøst og glansfuldt materiale, der er meget slidstærkt, også i vask. Det holder farven godt.</i>
WOOL	A natural material with great insulating properties that keep your feet comfortable and dry.	<i>Et naturligt materiale med gode isolerende egenskaber, som holder dine fødder tørre og behagelige.</i>
BAMBOO-VISCOSE	A natural and soft material that is 3-4 times more absorbent than cotton. Keeps your feet drier and more comfortable.	<i>Et naturligt og blødt materiale, der absorberer 3-4 gange så meget fugt som bomuld. Holder dine fødder tørre og mere behagelige.</i>
POLYAMIDE (NYLON)	A strong, hardwearing synthetic fibre. Is often used in a blend with other fibres to improve durability and to add stretch.	<i>En syntetisk fiber, der er meget slidstærk. Den bruges ofte i en blanding med andre fibre for at forbedre holdbarheden og tilføre stræk.</i>
ELASTANE (LYCRA)	A lightweight, synthetic elastic fibre that offers a great fit and stretch.	<i>En let, syntetisk og elastisk fiber, der giver en god pasform og et godt stræk.</i>

Egtved specialities

Detail is king. The same goes when you are choosing socks. As an exclusive sock brand, Egtved offers many special features that provide extra comfort and functionality. Socks may appear as an insignificant part of an outfit. But, in fact, they have great potential – and when they are carefully

chosen, they have the ability to change a look and increase your well-being.

Below, you find a short description of the three specialities that characterise Egtved.

<p>TWIN</p>	<p>A doubled layered sock with temperature regulating merino wool on the outside and soft cotton on the inside.</p> <p>...</p> <p><i>En strømpe med to lag. Ydersiden er lavet med temperaturregulerende merinould og indersiden med blødt bomuld.</i></p>	
<p>NO ELASTIC</p>	<p>A sock produced without the normal elastic at the top. It is comfortable to wear and remains firm without restricting blood circulation.</p> <p>...</p> <p><i>En strømpe lavet uden den almindelige elastik i toppen. Den er behagelig at have på og bliver på plads uden at hæmme blodcirkulationen.</i></p>	
<p>VENTILATED SOLE</p>	<p>Small air pockets are knitted into the sole of the socks. This provides enhanced breathability.</p> <p>...</p> <p><i>Små luftlommer er strikket ind i strømpens sål. Det giver ekstra åndbarhed.</i></p>	

Egtved features

High wearability and great comfort are some of the key qualities that characterise Egtved. Even though some of the key Egtved features are not visible to the eye, you will immediately feel the difference.

Egtved socks are constructed to give you a comfortable fit and a better wear. And they have thin seams to reduce irritation while you are wearing them.

<p>HIGH DURABILITY</p> <p>Egtved socks feature an extra reinforcement on high-wear areas, such as the heel and toe areas. This ensures enhanced durability.</p> <p>...</p> <p><i>Egtved-strømper har ekstra forstærkning på udsatte områder, såsom områderne ved hælen og tåen. Det sikrer ekstra slidstyrke.</i></p>	<p>Extra reinforcement</p>  <p>Areas exposed to high-wear have extra reinforcement</p>
<p>COMFORTABLE</p> <p>Egtved socks have a larger area around the heel and toes and a comfort top with inside elastic. This ensures that they are comfortable to wear.</p> <p>...</p> <p><i>Egtved-strømper har et større område ved hælen og tæerne og en komforttop med indvendig elastik. Det sikrer, at de er behagelige at have på.</i></p>	<p>Greater comfort</p> <p>Comfort top</p>  <p>Larger area ensures high comfort and a perfect fit.</p>

Terms used in the catalogue

Throughout the catalogues, you will come across technical terms. In the table below, you

find a short description of these terms. Use the vocabulary whenever you are in doubt.

REGULAR	Thickness as a regular sock.	<i>Tykkelse som en almindelig strømpe</i>
HEAVY	Extra thick sock.	<i>Ekstra kraftig strømpe.</i>
PLAIN	Sock with smooth surface.	<i>Strømpe med glat overflade.</i>
VENTILATED SOLE	Sole with small air pockets that provide enhanced breathability.	<i>Sål med små luftlommer, som giver forbedret åndbarhed.</i>
NO ELASTIC	A sock without elastic at the top. Ensures good blood circulation.	<i>En strømpe uden elastik i toppen. Det sikrer et godt blodomløb.</i>
TWIN	A doubled layered sock with wool on the outside and cotton on the inside.	<i>En strømpe med to lag. Den har uld på ydersiden og bomuld på indersiden.</i>

RIB	Characterised by having a slight ridge effect in one direction.	<i>Er kendetegnet ved en let rillet-effekt i en retning.</i>
BROKEN RIB	Only every other row is ribbed creating an interesting pattern.	<i>Kun hver anden række er strikket med rib, hvilket skaber et flot mønster.</i>
BROAD RIB	Also known as fancy rib. It is wider than 2x2 rib.	<i>Også kendt som "fancy rib". Den er bredere end 2x2 rib.</i>
TERRY SOLE	Acts as a cushion under your feet. At the same time, it absorbs moisture from your feet.	<i>Virker som en pude under dine fødder, der samtidig fjerner fugt fra dine fødder.</i>
WORK SOCK	Quality socks with high durability and moisture wicking properties.	<i>Kvalitetsstrømper med høj slidstyrke og fugtabsorberende egenskaber.</i>
THERMO SOCK	Socks with thermos-regulating properties that provide good insulation in cold and warm conditions.	<i>Strømper med termoregulerende egenskaber, som giver god isolering under kolde og varme forhold.</i>

Dette katalog er et Cradle to Cradle certificeret produkt.

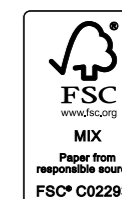

Det betyder, at du sidder med et garanteret bæredygtigt trykt produkt, som er 100% biologisk nedbrydeligt og helt fri for skadelige kemikalier og tungmetaller. Det betyder også, at KLS Pureprint i forbindelse med udarbejdelsen af kataloget har genbrugt jordens ressourcer i en naturlig cirkulær proces uden skadeligt affald, som er giftigt for mennesker og miljø. Cradle to Cradle er verdens strengeste miljøcertificering og garanterer, at et produkt hverken forurener eller bruger jordens begrænsede ressourcer, men derimod indgår i naturens egen cyklus. Det sikrer også, at de trykte produkter produceres under så miljøvenlige forhold som muligt. Ved bortskaffelse bør papiret afleveres som papir til genbrug og metal-spiralen som metal til genbrug.

This catalogue is a Cradle to Cradle certified product.

This means you are holding a guaranteed sustainably printed product that is 100% biodegradable and completely free of harmful chemicals and heavy metals. This also means that KLS Pureprint has produced this catalogue by recycling the earth's resources in a natural circular process without any harmful waste that is toxic to humans and the environment. Cradle to Cradle is the world's most stringent environmental certification, and guarantees that a product does not pollute or use the limited resources of the earth, but instead is integrated in nature's own cycle. It also ensures that the printed products are produced under conditions that are as environmentally friendly as possible. When disposing of the catalogue, the paper should be handed over as paper for recycling and the metal spiral as metal for recycling.
